

# PAKISTAN ENTOMOLOGICAL SOCIETY (PES)

Advancing Entomology, Research & Sustainable Pest Management

## ABOUT PES

The Pakistan Entomological Society (PES) is a national, non-profit, and scientific organization dedicated to the advancement of entomological research, education and the promotion of Integrated Pest Management (IPM) in Pakistan.

Established to promote the study of insects and other arthropods, PES brings together researchers, academicians, students, and professionals working in diverse fields of entomology and allied sciences to address the challenges of pests and vector-borne diseases through sustainable solutions.

## MISSION

To promote and advance the science of entomology and its applications for the benefit of society through research, education, collaboration, and outreach with a focus on improving Integrated Pest Management in Pakistan.

## VISION

To be a leading organization in entomology recognized for scientific excellence, innovation, and contribution to sustainable agriculture, environment and public health through effective IPM.

## OUR KEY FOCUS AREAS

### RESEARCH & PUBLICATIONS

Promoting high quality research and providing a platform for scientific publications.

### CONFERENCES & WORKSHOPS

Organizing national and international events to share knowledge and innovations.

### PROFESSIONAL NETWORKING

Connecting entomologists, researchers, students and industry professionals worldwide.

### TRAINING & CERTIFICATION

Capacity building through training programs and professional development opportunities.

### SUSTAINABLE PEST MANAGEMENT

Promoting IPM, ecological approaches and sustainable solutions for a better environment.

## PES BY THE NUMBERS

**500+**  
MEMBERS

Researchers, academicians and professionals

**300+**  
STUDENTS

Undergraduate & postgraduate members

**25+**

PUBLICATIONS  
Journals, newsletters and proceedings

**50+**

WORKSHOPS  
Conferences, seminars & training programs

**20+**

COLLABORATIONS  
National & international partnerships

## WHAT PES OFFERS

### SCIENTIFIC PUBLICATIONS

Access to PES journals, newsletters, abstracts and other scientific resources.

### WORKSHOPS & SEMINARS

Participation in training programs, webinars, symposia and conferences.

### MEMBERSHIP OPPORTUNITIES

Open to students, professionals, researchers and institutions.

### COLLABORATION PROGRAMS

Opportunities for national & international collaborative research and projects.

### CAREER DEVELOPMENT

Support for young scientists through mentorship, grants and awards.

## PUBLICATIONS & RESOURCES

- ✓ PES Magazine
- ✓ PES Abstracts
- ✓ Newsletter
- ✓ Proceedings of Conferences
- ✓ Technical & Educational Resources
- ✓ Access to online materials and updates on latest research

## MEMBERSHIP BENEFITS

- ✓ Networking with experts and professionals
- ✓ Access to publications
- ✓ Reduced fee at conferences and events
- ✓ Eligibility for awards and grants
- ✓ Professional recognition and visibility
- ✓ Contribution to the advancement of entomology and IPM in Pakistan

## NATIONAL & INTERNATIONAL NETWORKING

PES collaborates with national organizations, universities, research institutes and international societies to promote knowledge exchange, research collaboration and global partnerships for improving Integrated Pest Management.

## PES INSECT PHOTOGRAPHY COMPETITION

Celebrate the amazing world of insects!

- ✓ Open to all members & students
- ✓ Cash prizes & certificates
- ✓ Selected photos will be featured in PES publications & website

**SUBMIT YOUR BEST SHOT!**

Details & submission: info@entosociety.pk
